Changelog

October 28, 2026

Added

- **Photo Gallery Page (`/gallery`):** Dedicated photo gallery featuring categorized filtering (Summits, Workshops, Community) and interactive lightbox modal view with keyboard navigation.
- **Press Releases Section (`/news/press-releases`):** Replaced "Media Center" across navigation, menus, and pages; connected directly to CMS posts under the `press-release` category.
- **Organizational Organogram (`OrganogramChart.vue`):** Interactive hierarchy chart mapping General Assembly → Board of Directors & Advisory → Executive Director → 4 core directorates; embedded into `/who-we-are/about-us` and `/who-we-are/our-team`.
- **Writer Role (Strapi):** Automated bootstrap creating dedicated "Writer" roles in both Strapi Admin (`admin::role`) and Users-Permissions (`plugin::users-permissions.role`) with draft creation and editing permissions for posts, impact stories, and resources.
- **Route Aliases & Redirects:** Added 301 redirects for `/partner-with-us` → `/get-involved` and `/news/media-center` → `/news/press-releases`.

Changed

- **Membership Flow:** "Become a member" CTA updated to route directly to `/get-involved#become-a-member` and the official membership application form.
- **Projects Portfolio (`/projects`):** Filtered project listings to retain only the Sida-funded *Civil Society Strengthening Programme for Children Rights* (2026–2029), removing generic placeholder workstreams.
- **Navigation:** Updated header navigation, sub-menus, and footer quick links to include *Photo Gallery* and *Press Releases*.
- **Post Schema:** Added `press-release` to the Strapi Post `category` enumeration.

Removed

- **Mock Bid Data:** Purged mock tender and RFP entries from seeder, static fallbacks, and live database.
- **Bids Empty State:** Added clean default empty state display on `/news/bids` when no tenders are active.
